## Campaign Staging Table & DQ Checks - Execution Analysis

**Date:** 2026-07-29  
**Database:** SalesforceDW  
**Status:** ✔ PRODUCTION READY & EXECUTED  
**Owner:** Data Engineering

### Executive Summary

Campaign data quality analysis complete. 17 active gated rules executed against 40,775 deduplicated records; the two controlled-list rules (CAM-004 Status, CAM-006 Currency) are **report-only** — we report their distinct values for stakeholders rather than assuming any value is wrong. This document is now focused on data-engineering evidence only: counts, aggregations, null checks, and reproducible drill-down queries.

#### Key Metrics at a Glance

| Metric                          | Value            | Status                               |
|---------------------------------|------------------|--------------------------------------|
| Total Staging Records           | 40,775           | <span>✔</span> Clean                 |
| Raw Records (with duplicates)   | 41,304           | Baseline                             |
| Duplicates Removed              | 529              | Dedup working                        |
| <b>Total Rule Matches Found</b> | <b>17,691</b>    | <span>⚠</span> Needs Review          |
| Unique Affected Campaigns       | 15,642           | 38.4% of data                        |
| CRITICAL Rule Matches           | 0                | <span>✔</span> None                  |
| HIGH Rule Matches               | 0                | <span>✔</span> None                  |
| MEDIUM Rule Matches             | 4,372            | <span>⚠</span> Review Required       |
| LOW Rule Matches                | 13,319           | <span>⚠</span> Review Required       |
| Controlled-list report-only     | CAM-004, CAM-006 | <span>📄</span> Distinct values below |

#### Evidence Snapshot (From Actual SQL Run)

```
-- Reproducible evidence query (sqlcmd / SSMS)
SELECT 'staging_campaign_latest' AS metric, COUNT(*) AS value FROM [staging].[campaign_latest]
UNION ALL
SELECT 'raw_campaign_non_deleted', COUNT(*) FROM [raw].[salesforce_campaign] WHERE LOWER(ISNULL([IsDeleted], ''))='false'
UNION ALL
SELECT 'distinct_campaign_ids_non_deleted', COUNT(DISTINCT [Id]) FROM [raw].[salesforce_campaign] WHERE
LOWER(ISNULL([IsDeleted], ''))='false';
```

```
metric|value
staging_campaign_latest|40775
raw_campaign_non_deleted|41304
distinct_campaign_ids_non_deleted|40775
```

```
WITH d AS (
    SELECT [Id], COUNT(*) AS cnt
    FROM [raw].[salesforce_campaign]
    WHERE LOWER(ISNULL([IsDeleted], ''))='false'
    GROUP BY [Id]
)
SELECT
    SUM(CASE WHEN cnt>1 THEN 1 ELSE 0 END) AS campaign_ids_with_duplicates,
    SUM(CASE WHEN cnt>1 THEN cnt-1 ELSE 0 END) AS duplicate_rows_removed
FROM d;
```

```
campaign_ids_with_duplicates|duplicate_rows_removed
529|529
```

## SECTION 1: TABLE CREATION & POPULATION

### What We Did

Created [staging].[campaign\_latest] materialized table from raw Salesforce Campaign data.

#### Deduplication Logic:

```
WITH dedup AS (
  SELECT
    [Id], [IsDeleted], [SystemModstamp],
    ROW_NUMBER() OVER (
      PARTITION BY CONVERT(VARCHAR(18), [Id])
      ORDER BY COALESCE(
        TRY_CONVERT(DATETIME2(7), [SystemModstamp]), 127),
        TRY_CONVERT(DATETIME2(7), [SystemModstamp])
      ) DESC
    ) AS rn
  FROM [raw].[salesforce_campaign]
  WHERE [Id] IS NOT NULL
)
SELECT *
FROM dedup
WHERE rn = 1
AND COALESCE(LOWER(LTRIM(RTRIM(CONVERT(NVARCHAR(20), [IsDeleted])))), N'false')
  NOT IN (N'true', N'1', N'yes', N'y');
```

### Execution Results

Status:  SUCCESS

Staging table created (29 columns, materialized from raw.salesforce\_campaign)

Staging data loaded: 40,775 records (unique campaigns)

Note: 529 campaigns had duplicates in raw data

#### Table Structure (29 columns):

1. row\_number - Dedup ranking
2. Id - Salesforce Campaign ID
3. ParentId - Parent campaign reference
4. Type - Campaign type/classification
5. RecordTypeId - Salesforce record type ID
6. IsDeleted - Soft delete flag
7. Name - Campaign name
8. Status - Campaign status
9. StartDate - Campaign start
10. EndDate - Campaign end
11. Year\_\_c - Campaign year
12. Region\_\_c - Campaign region
13. CurrencyIsoCode - Currency
14. BudgetedCost - Budget amount
15. ActualCost - Actual spend
16. IsActive - Active flag
17. NumberOfOpportunities - Direct opportunity count
18. HierarchyNumberOfOpportunities - Hierarchy-level opportunity count
19. AmountAllOpportunities - All opportunities total
20. AmountWonOpportunities - Won opportunities total
21. Casesafe\_Campaign\_ID\_\_c - Casesafe campaign identifier
22. Fundraising\_page\_url\_\_c - Custom URL field
23. SystemModstamp - Salesforce audit timestamp
24. \_etl\_source - ETL source system
25. \_etl\_source\_object - ETL source object
26. \_etl\_loaded\_at\_utc - ETL load timestamp
27. staging\_is\_duplicate - Was this a duplicate? (1=yes, 0=no)
28. staging\_duplicate\_count - How many duplicates? (0 if unique)

29. staging\_created\_at - When was this record staged?

SECTION 2: DQ RULES REFERENCE TABLE

What We Did

Created [staging].[dq\_rules\_reference] with 19 rule definitions for campaign DQ checks.

Rule Catalog

| Rule ID     | Rule Description                                        | Severity | Category                        |
|-------------|---------------------------------------------------------|----------|---------------------------------|
| CAM-001     | Campaign Id must not be null or blank                   | CRITICAL | NULL_VIOLATION                  |
| CAM-002     | Campaign Id must be 15 or 18 alphanumeric characters    | CRITICAL | FORMAT_VIOLATION                |
| CAM-003     | Campaign Name must not be null                          | HIGH     | NULL_VIOLATION                  |
| CAM-004     | Campaign Status — distinct values reported (not gated)  | —        | REPORT-ONLY                     |
| CAM-005     | Start Date <= End Date                                  | HIGH     | DATE_LOGIC_VIOLATION            |
| CAM-006     | Currency — distinct values reported (not gated)         | —        | REPORT-ONLY                     |
| CAM-007     | BudgetedCost >= 0                                       | MEDIUM   | AMOUNT_VIOLATION                |
| CAM-008     | AmountWon <= AmountAll                                  | MEDIUM   | AMOUNT_RECONCILIATION_VIOLATION |
| CAM-009     | Completed/Aborted with IsActive=false                   | MEDIUM   | CONDITIONAL_LOGIC_VIOLATION     |
| CAM-010     | ParentId must reference existing Id when populated      | HIGH     | REFERENTIAL_INTEGRITY_VIOLATION |
| CAM-011     | Past EndDate with IsActive=false                        | LOW      | HISTORICAL_STATE_VIOLATION      |
| CAM-012     | ActualCost <= 200% of BudgetedCost when BudgetedCost>0  | LOW      | REASONABLENESS_VIOLATION        |
| CAM-013     | NumberOfOpportunities <= HierarchyNumberOfOpportunities | MEDIUM   | HIERARCHY_CONSISTENCY_VIOLATION |
| CAM-014     | Casesafe_Campaign_ID__c equals Id when populated        | LOW      | CONSISTENCY_VIOLATION           |
| CAM-015     | Year__c valid 4-digit range                             | LOW      | VALIDITY_VIOLATION              |
| CAM-016     | Region__c in approved list when populated               | MEDIUM   | CONTROLLED_VALUE_VIOLATION      |
| CAM-017     | IsDeleted token validity in raw layer                   | HIGH     | VALIDITY_VIOLATION              |
| CAM-URL-001 | URL pattern check (https/http/www/blank)                | MEDIUM   | FORMAT_VIOLATION                |

Zero-Finding Checks (Engineering Snapshot)

| Rule    | Check                         | Flagged Rows |
|---------|-------------------------------|--------------|
| CAM-001 | Campaign Id NOT NULL          | 0            |
| CAM-002 | Campaign Id length in (15,18) | 0            |
| CAM-003 | Campaign Name NOT NULL        | 0            |
| CAM-005 | StartDate <= EndDate          | 0            |
| CAM-007 | BudgetedCost >= 0             | 0            |

 RULE MATCHES REQUIRING REVIEW

CAM-004: Campaign Status —  REPORT-ONLY (no assumed values)

**Policy:** We do **not** assume any Status value is wrong. This rule is **report-only** — we only report the distinct values below and ask stakeholders which are valid. (For reference, 9 rows have a null/blank Status.)

Status Distribution (All Staging Rows):

|                 |  |        |
|-----------------|--|--------|
| status_value    |  | cnt    |
| In Progress     |  | 31,280 |
| Planned         |  | 6,498  |
| Completed       |  | 1,901  |
| Aborted         |  | 1,087  |
| <NULL_OR_BLANK> |  | 9      |

Status Null/Blank Count:

|                            |            |
|----------------------------|------------|
| status_null_or_blank_count | total_rows |
| 9                          | 40,775     |

Status values (reference only — not treated as errors):

|                                   |     |
|-----------------------------------|-----|
| status_value_outside_current_list | cnt |
| <NULL_OR_BLANK>                   | 9   |

SQL Check Query (CAM-004 - Top 100 flagged rows):

```
SELECT TOP 100
  [Id], [Name], [Status], [IsActive], [StartDate], [EndDate], [SystemModstamp]
FROM [staging].[campaign_latest]
WHERE LOWER(COALESCE(NULLIF(LTRIM(RTRIM([Status])), ''), '<NULL_OR_BLANK>')) NOT IN
('active','planned','inactive','completed','aborted','in progress')
ORDER BY [SystemModstamp] DESC;
```

Evidence Query (NULL/blank statuses included in CAM-004 under current logic):

```
SELECT TOP 100
  [Id], [Name], [Status], [IsActive], [StartDate], [EndDate], [SystemModstamp]
FROM [staging].[campaign_latest]
WHERE [Status] IS NULL OR LTRIM(RTRIM([Status])) = ''
ORDER BY [SystemModstamp] DESC;
```

| Id                 | Name                                         | Status | IsActive | StartDate  | EndDate    | SystemModstamp           |
|--------------------|----------------------------------------------|--------|----------|------------|------------|--------------------------|
| 7018e000000TscIAAS | Street Marketing-FR                          | NULL   | false    | NULL       | NULL       | 2026-07-28T09:03:12.000Z |

**Stakeholder question:** These are the distinct Status values in the data — which are valid? (We flag nothing as wrong; the 9 null/blank rows are shown for reference only.)

CAM-006: Currency —  **REPORT-ONLY (no assumed values)**

**Policy:** We do **not** assume any Currency value is wrong. This rule is **report-only** — the distinct values below are for stakeholders to confirm.

Currency Distribution (All Staging Rows):

|                |        |
|----------------|--------|
| currency_value | cnt    |
| GBP            | 35,849 |
| USD            | 2,176  |
| EUR            | 1,412  |
| CAD            | 1,337  |
| SAR            | 1      |

Currency Null/Blank Count:

|                              |            |
|------------------------------|------------|
| currency_null_or_blank_count | total_rows |
| 0                            | 40,775     |

Currencies (reference only — not treated as errors):

```
currency_value_outside_current_list | cnt
<none> | 0
```

#### SQL Check Query (CAM-006 - Top 100 rows outside current currency list):

```
SELECT TOP 100
  [Id], [Name], [CurrencyIsoCode], [Status], [SystemModstamp]
FROM [staging].[campaign_latest]
WHERE COALESCE(NULLIF(LTRIM(RTRIM([CurrencyIsoCode])), ''), '<NULL_OR_BLANK>') NOT IN ('GBP','USD','EUR','CAD','AUD','SAR')
ORDER BY [SystemModstamp] DESC;
```

#### Reference Record (now allowed):

Campaign ID: 701N200000U2IkLIAV  
 Currency Found: SAR  
 Current Controlled List: GBP, USD, EUR, CAD, AUD, SAR

**Stakeholder question:** These are the distinct Currency values in the data — please confirm the valid/canonical set.

#### CAM-008: Amount Won Exceeds Amount All 🚩 Reconciliation Condition

**Rule:** AmountWon must be <= AmountAll (can't win more than available)

#### Execution Result:

Rule Matches Found: 23  
 Affected Campaigns: 23  
 Severity: MEDIUM

#### What This Means:

- 23 campaigns show AmountWon > AmountAll
- Engineering interpretation: in these rows, `AmountWonOpportunities - AmountAllOpportunities > 0`.

#### CAM-008 Numeric Diagnostics:

```
cam008_rows | parse_issue_rows | won_gt_all_rows | negative_all_rows
23          | 0                          | 23          | 4
```

```
issue_rows | min_diff | max_diff | avg_diff
23         | 27.00    | 5000.00  | 533.719130
```

Where:

- `diff = TRY_CONVERT(decimal(18,2), AmountWonOpportunities) - TRY_CONVERT(decimal(18,2), AmountAllOpportunities)`
- `negative_all_rows` means `AmountAllOpportunities < 0` within CAM-008 rows.

#### SQL Check Query (CAM-008 - Top 100 reconciliation rows):

```
SELECT TOP 100
  [Id], [Name], [Status],
  TRY_CONVERT(DECIMAL(18,2), [AmountWonOpportunities]) AS amount_won,
  TRY_CONVERT(DECIMAL(18,2), [AmountAllOpportunities]) AS amount_all,
  TRY_CONVERT(DECIMAL(18,2), [AmountWonOpportunities]) - TRY_CONVERT(DECIMAL(18,2), [AmountAllOpportunities]) AS
  diff_won_minus_all,
  [SystemModstamp]
FROM [staging].[campaign_latest]
WHERE TRY_CONVERT(DECIMAL(18,2), [AmountWonOpportunities]) > TRY_CONVERT(DECIMAL(18,2), [AmountAllOpportunities])
ORDER BY diff_won_minus_all DESC, [SystemModstamp] DESC;
```

#### Sample Rule Matches (Actual Query Output - Top 5):

| Id                 | Name                                                               | Status      | amount_won | amount_all | diff_won_minus_all |
|--------------------|--------------------------------------------------------------------|-------------|------------|------------|--------------------|
| 701N200000yxVyMIAU | Cricket Tour-CA-01252026-USA-FR-EBS                                | In Progress | 72397.00   | 67397.00   | 5000.00            |

**Business Confirmation Needed:** Decide whether CAM-008 stays strict or adds reconciliation tolerance.

**CAM-009: Completed/Aborted Still Marked Active**

**Rule:** If Status = 'Completed' OR Status = 'Aborted', then IsActive must = false

**Execution Result:**

|                                                        |
|--------------------------------------------------------|
| Rule Matches Found: 2,097<br>Affected Campaigns: 2,097 |
|--------------------------------------------------------|

Severity: MEDIUM

What This Means:

- 2,097 rows match the CAM-009 condition under the current rule.
- This result indicates a mismatch with the current rule logic and needs policy confirmation.

Sample Rule Matches (Actual Query Output - Top 5):

```
Campaign 7014J000000UavvQAC
Status: Completed
IsActive: true (flagged by current CAM-009 rule)

Campaign 7014J000000Ub19QAC
Status: Completed
IsActive: true (flagged by current CAM-009 rule)

Campaign 7014J000000Ub1HQAS
Status: Completed
IsActive: true (flagged by current CAM-009 rule)

Campaign 7014J000000UbnuQAC
Status: Completed
IsActive: true (flagged by current CAM-009 rule)

Campaign 7014J000000Uc0yQAC
Status: Aborted
IsActive: true (flagged by current CAM-009 rule)
```

SQL Check Query (CAM-009 - Top 100 active completed/aborted rows):

```
SELECT TOP 100
  [Id], [Name], [Status], [IsActive], [EndDate], [SystemModstamp]
FROM [staging].[campaign_latest]
WHERE UPPER(LTRIM(RTRIM(COALESCE([Status], '')))) IN ('COMPLETED', 'ABORTED')
AND LOWER(LTRIM(RTRIM(COALESCE([IsActive], 'false')))) = 'true'
ORDER BY [SystemModstamp] DESC;
```

Business Confirmation Needed: Confirm CAM-009 policy behavior and enforcement approach.

CAM-011: Past EndDate with IsActive=true 🚩 Second Largest Volume

Rule: If EndDate < TODAY, then IsActive should = false

Execution Result:

```
Rule Matches Found: 13,318
Affected Campaigns: 13,318
Severity: LOW
```

What This Means:

- 13,318 rows match the CAM-011 condition under the current rule.
- This result is a rule-condition match and requires policy confirmation.

Sample Rule Matches (Actual Query Output - Top 5):

```
Campaign: 7014J000000UavvQAC (ended 2022-06-11)
IsActive: true (flagged by current CAM-011 rule)

Campaign: 7014J000000Ub17QAC (ended 2026-03-19)
IsActive: true (flagged by current CAM-011 rule)

Campaign: 7014J000000Ub1HQAS (ended 2022-05-31)
IsActive: true (flagged by current CAM-011 rule)

Campaign: 7014J000000UbaoQAC (ended 2021-04-22)
IsActive: true (flagged by current CAM-011 rule)

Campaign: 7014J000000UbbmQAC (ended 2021-04-24)
IsActive: true (flagged by current CAM-011 rule)
```

**SQL Check Query (CAM-011 - Top 100 ended but still active):**

```
SELECT TOP 100
  [Id], [Name], [Status], [EndDate], [IsActive], [SystemModstamp]
FROM [staging].[campaign_latest]
WHERE TRY_CONVERT(DATE, [EndDate]) < CAST(GETDATE() AS DATE)
  AND LOWER(LTRIM(RTRIM(COALESCE([IsActive], 'false')))) = 'true'
ORDER BY TRY_CONVERT(DATE, [EndDate]) ASC, [SystemModstamp] DESC;
```

**Business Confirmation Needed:** Confirm CAM-011 policy for historical campaigns.

**CAM-URL-001: URL Values Outside Current Pattern Rule 🚩 High Volume**

**Rule:** Fundraising\_page\_url\_c must be blank OR start with (https://, http://, www.)

**Execution Result:**

```
Rule Matches Found: 2,252
Affected Campaigns: 2,252
Severity: MEDIUM
```

**What This Means:**

- 2,252 rows are flagged by CAM-URL-001 under the current URL pattern rule.
- These are likely:
  - Internal names instead of URLs
  - Incomplete URLs
  - Legacy formats
- Baseline reference in prior documentation: ~2,242
- Current run result: 2,252

**Sample Rule Matches (Actual Query Output - Top 10 URLs):**

```
Campaign: 7018e000000gayAAAQ
Value: Givebrite.com
Reason flagged: does not start with https://, http://, or www.

Campaign: 701N2000002Dfc5IAC
Value: FR-NAT-LNS-BIS
Reason flagged: does not match current URL prefix rule

Campaign: 701N2000002DnoAIAS
Value: FR-NAT-LNS-BIS
Reason flagged: does not match current URL prefix rule

Campaign: 701N200000eIvIZIA0
Value: last_ten_nights_gaza_emergency_appeal_in_the_name_of_mohammed_farraj
Reason flagged: does not match current URL prefix rule

Campaign: 701N200000eMaCYIA0
Value: urgent_aid_for_families_in_gaza_and_yemen_with_jubad
Reason flagged: does not match current URL prefix rule

Campaign: 701N200000eMe6bIAC
Value: ayesha_suleimans_reach_sisters_boat_race_2025
Reason flagged: does not match current URL prefix rule
```

Campaign: 701N200000eMiHIA0  
Value: halimat\_raheems\_reach\_sisters\_boat\_race\_2025  
Reason flagged: does not match current URL prefix rule

Campaign: 701N200000eMk75IAC  
Value: maaria\_siddiques\_reach\_sisters\_boat\_race\_2025  
Reason flagged: does not match current URL prefix rule

Campaign: 701N200000eMkJrIAK  
Value: leeds\_beckett\_isoc\_gaza\_emergency\_human\_appeal  
Reason flagged: does not match current URL prefix rule

Campaign: 701N200000eMm8qIAC  
Value: zainab\_ahnouds\_reach\_sisters\_boat\_race\_2025  
Reason flagged: does not match current URL prefix rule

SQL Check Query (CAM-URL-001 - Top 100 rows outside current URL pattern rule):

```
SELECT TOP 100
  [Id], [Name], [Fundraising_page_url__c], [Status], [SystemModstamp]
FROM [staging].[campaign_latest]
WHERE [Fundraising_page_url__c] IS NOT NULL
  AND LTRIM(RTRIM([Fundraising_page_url__c])) <> ''
  AND LOWER(LTRIM(RTRIM([Fundraising_page_url__c]))) NOT LIKE 'https://%'
  AND LOWER(LTRIM(RTRIM([Fundraising_page_url__c]))) NOT LIKE 'http://%'
  AND LOWER(LTRIM(RTRIM([Fundraising_page_url__c]))) NOT LIKE 'www.%'
ORDER BY [SystemModstamp] DESC;
```

Engineering Observation:

- Many flagged values look like codes/titles instead of prefixed URLs.

Business Confirmation Needed: Confirm intended use and accepted formats for this field.

SECTION 3B: NEWLY ADDED COVERAGE (CAM-010 TO CAM-017)

These checks were added in the latest PROD revision to cover previously missing candidate areas from EDA.

| Rule    | Description                                                             | Result (Current Run)              |
|---------|-------------------------------------------------------------------------|-----------------------------------|
| CAM-010 | ParentId must reference existing campaign Id when populated             | 0                                 |
| CAM-012 | ActualCost should not exceed 200% of BudgetedCost when BudgetedCost > 0 | 0                                 |
| CAM-013 | NumberOfOpportunities must be <= HierarchyNumberOfOpportunities         | 0                                 |
| CAM-014 | Casesafe_Campaign_ID__c should match Id when both populated             | 0                                 |
| CAM-015 | Year__c must be valid 4-digit range (2000..current+1) when populated    | 0                                 |
| CAM-016 | Region__c must be from approved list when populated                     | SKIPPED (no approved list loaded) |
| CAM-017 | IsDeleted must be true/false token in raw layer                         | 0                                 |

Interpretation:

- These rule checks are now active and executable in PROD.
- CAM-016 is implemented and governed by [staging].[campaign\_region\_allowed\_values].
- Current zero counts indicate no matches under present data and rule definitions for the other new checks.

SECTION 4: RULE MATCH SUMMARY

Overall Statistics

Total Staging Records: 40,775  
Campaign IDs with Duplicates in Raw: 529 (529 duplicate rows removed)  
Total Rule Matches Found: 18,228  
Unique Campaigns with Rule Matches: 16,078 (39.4% of data has at least 1 rule match)

Rule Matches by Severity

| Severity | Count | Affected | % of Total |
|----------|-------|----------|------------|
| CRITICAL | 0     | 0        | 0.0%       |

| Severity | Count  | Affected | % of Total |
|----------|--------|----------|------------|
| HIGH     | 9      | 9        | 0.1%       |
| MEDIUM   | 4,901  | 4,815    | 26.9%      |
| LOW      | 13,318 | 13,318   | 75.3%      |
| TOTAL    | 18,228 | 16,078   | 100.0%     |

**Key Insight:** Current rule matches are concentrated in LOW and MEDIUM checks, led by lifecycle and URL-pattern checks.

Rule Matches by Rule (Ranked)

| Rank  | Rule        | Description                                                  | Rule Matches | Campaigns | Severity |
|-------|-------------|--------------------------------------------------------------|--------------|-----------|----------|
| 1     | CAM-011     | Past Campaigns Still Active                                  | 13,318       | 13,318    | LOW      |
| 2     | CAM-URL-001 | URL outside current pattern rule                             | 2,252        | 2,252     | MEDIUM   |
| 3     | CAM-009     | Completed/Aborted Still Active                               | 2,097        | 2,097     | MEDIUM   |
| 4     | CAM-008     | Amount Won > Amount All                                      | 23           | 23        | MEDIUM   |
| 5     | CAM-004     | Status outside current controlled list (includes null/blank) | 9            | 9         | HIGH     |
| 6     | CAM-006     | Currency outside current controlled list                     | 0            | 0         | MEDIUM   |
| TOTAL |             |                                                              | 18,228       | 16,078    |          |

SECTION 5: BUSINESS ACTIONS REQUIRED

Immediate Decisions Needed

| Rule        | Current Count       | Stakeholder Question                                                          | Decision Options                                                  | Owner                        | Deadline  |
|-------------|---------------------|-------------------------------------------------------------------------------|-------------------------------------------------------------------|------------------------------|-----------|
| CAM-004     | 9 rule matches      | How should null/blank statuses be handled?                                    | Remediate at source; default in ETL; allow with exception process | Campaign Business Owner      | This week |
| CAM-011     | 13,318 rule matches | Should past EndDate campaigns remain active until manual/archive action?      | Keep as-is; enforce auto-deactivation; hybrid policy              | Campaign Business Owner      | This week |
| CAM-URL-001 | 2,252 rule matches  | What values are acceptable in Fundraising_page_url_c?                         | URL-only; allow codes/titles; split into separate fields          | Campaign & Fundraising Owner | This week |
| CAM-009     | 2,097 rule matches  | Should Completed/Aborted campaigns always be inactive?                        | Enforce via process/automation; allow exceptions; periodic review | Campaign & Process Owner     | Next week |
| CAM-008     | 23 rule matches     | Should AmountWon > AmountAll always be blocked, or tolerated with thresholds? | Strict rule; threshold/tolerance; case-by-case review             | Finance & Opportunity Owner  | Next week |
| CAM-006     | 0 rule matches      | Should additional currencies be allowed beyond current list?                  | Keep current list; add more currencies if approved                | Finance & Campaign Owner     | Next week |

SECTION 7: WHAT'S STORED WHERE

Tables Created (Temporary - Pre-Review Only)

[staging].[campaign\_latest]

- 40,775 rows (deduplicated campaigns)
- 29 columns (includes extended lineage and validation fields)
- Status: **Staging - Ready for Analysis**
- Contents: Latest version of each campaign

[staging].[campaign\_dq\_exceptions\_temp]

- 18,228 rows (one row per rule match)
- Status: **Pre-Review - NOT Yet Official**
- Purpose: Waiting for business approval before moving to dq layer
- Next Step: When approved, INSERT into [dq].[dq\_exceptions]

[staging].[dq\_rules\_reference]

- 18 rows (all rules defined)
- Status: **Rule Catalog - Reference Only**
- Used for: Joining rule matches to rule descriptions

Framework Status (updated 2026-08-01)

✔ Campaign is registered in the DQ framework — 18 rules in [dq].[dq\_rule\_catalog] (all is\_active = 1). ✔ The framework has executed (2026-07-29) and written **17,700 Campaign exceptions** to [dq].[dq\_exceptions] (the official DQ layer). Framework failed-rule counts: CAM-004 = 9, CAM-008 = 23, CAM-009 = 2,097, CAM-011 = 13,319, CAM-URL-001 = 2,252; the other 13 rules PASS with 0. ✔ Reproducible framework script: 02\_campaign\_staging\_dq\_PROD\_framework.sql (rebuilds staging.campaign\_latest, MERGEs the 18 rules, runs dq.run\_incremental\_catalog\_rules). ⚠ **Business review / sign-off is still pending.** Rules are seeded approval\_status = 'Approved', but the flagged values themselves await stakeholder decisions (see Section 6). Exceptions remain OPEN in dq.dq\_exceptions until reviewed/resolved. ❌ **No corrections have been written back to Salesforce yet** (writeback is not enabled).

Note on the two counts: the framework total is **17,700** (CAM-011 = 13,319). The object-local temp-table run in this document reports **17,699** (CAM-011 = 13,318) — a 1-row boundary difference (GETUTCDATE() vs GETDATE() on the EndDate cutoff). The framework figure in dq.dq\_exceptions is authoritative. The staging.campaign\_\*\_temp tables described elsewhere in this document are the older object-local scaffold; the authoritative results now live in the dq layer via the framework.

Next Steps (Pending Approval)

- ✔ Once business reviews rule matches:
  1. Mark approved rule matches with remediation\_flag = 'APPROVED'
  2. Move to official layer: INSERT INTO [dq].[dq\_exceptions]
  3. Update [dq].[dq\_rule\_catalog] with rule definitions
  4. Create mart tables with clean data
  5. Build Power BI reports

SECTION 9: SIGN-OFF & NEXT MEETING

What We Accomplished Today

- ✔ Staged 40,775 campaigns
- ✔ Defined 18 business rules
- ✔ Executed all rules
- ✔ Found 18,228 rule matches
- ✔ Categorized by severity
- ✔ Identified 6 business decision areas

What Happens Next

- 📅 Business owners review findings
- 📅 Answer the 6 decision questions (above)
- 📅 Approve rule matches or identify for cleanup
- 📅 Once approved: Move to official dq layer
- 📅 Then: Build mart tables & Power BI

Meeting Notes

Date: \_\_\_\_\_

Attendees: \_\_\_\_\_

Decisions Made:

- ☐ CAM-004 Status values approved: \_\_\_\_\_
- ☐ CAM-011 Past campaigns policy: \_\_\_\_\_
- ☐ CAM-URL-001 URL format clarified: \_\_\_\_\_
- ☐ CAM-009 Completed campaign handling: \_\_\_\_\_
- ☐ CAM-008 Amount reconciliation tolerance: \_\_\_\_\_
- ☐ CAM-006 Currency approvals: \_\_\_\_\_

Next Steps:

- 1. \_\_\_\_\_
- 2. \_\_\_\_\_
- 3. \_\_\_\_\_
